TIPS FROM THE VIDEO

- Once you hit 83 Conquest runs, stop spending Odyle. Save it for Wednesday after the reset, when you get full Kinah again.
- Only hand in Abyss Supply Requests when the AP per item beats its market price (an Artisan refining stone for 1,000 AP isn't worth it).
- Whatever people need for the Supply Request is worth crafting and selling on the market – they want Abyss Points just like you.
- Arena rank only gives a title with no bonus. Abyss Points from participation are worth more than chasing Master.
- You can buy Command scrolls right after the reset and keep them in your inventory for later. Max. 20 active quests.
